

APRIL FOOL

**Your Honor please, I must object
The defendant is a total wreck
The verdicts in, no more to say
The guilt falls on the casual D.A.**

**So string 'em up, hang 'em high
And always let your freak flag fly
Burn if you must in effigy
But unlock the bars, you have the key**

**Because I...
Dont want to be
An April Fool
forever**

**The jokes gone on for far to long
Can't remember who wrote that song
Romanticize to hide the lies
That burn inside your bloodshot eyes**

**A toast to all things past
Say no regrets for living fast
It's time to step into the light
To live for days instead of nights**

**Because I...
Dont want to be
An April Fool
forever**
