

BYE BYE BABY

**Ran down to the river But you were not there
So I headed back home And found your note there
I hurried to town I looked everywhere
Found you at the station But you didn't care**

**You said, Bye bye Baby, It's been nice
Bye bye Baby, This just ain't my idea of paradise**

**Johnny was a sweet young boy Another Buck from the stable
But in the end it seems like life Laid too much on his table
His brothers and sisters cry Oh why weren't we able?
Mother and Father try to understand The point of this fable**

**He said, Bye bye Baby, It's been nice
Bye bye Baby, This just ain't my idea of paradise**

**Momma's kinda blown away She's says she's defeated
Feels too much is breakin' down Before the journeys completed
She's tired of fighting all the time She's tired of being cheated
The light was growing dimmer and I heard her say
As she retreated...**

**She said, Bye bye Baby, It's been nice
Bye bye Baby, This just ain't my idea of paradise**
