

DOWN HERE

**Fluorescent halo illuminates your head
I heard you speak but can't remember what you said
Tell me darlin', I got to know
You are my crux and now I'm dyin' slow**

**I think back to our halcyon days
I can't believe I let them slip away
My whole worlds going down the drain
Seems to me it's all been in vain**

**From down here, I'm down on the floor
Guess I won't be seeing you anymore
It's unclear, it's unclear to me
If I'll survive this uncertainty**

**Broken arrows lay at my feet
I can't fight, so I guess I'm beat
There's nothing more for me to do
Hope I can get used to the view**

**From down here, I'm down on the floor
Guess I won't be seeing you anymore
It's unclear, it's unclear to me
If I'll survive this uncertainty**

**Fluorescent halo illuminates your head
I heard you speak but can't remember what you said
Tell me darlin', I got to know
You are my crux and now I'm dyin' slow**
