

DRINKING WITH GHOSTS

**I'm sorry to say, It's sad but its true
I'm a little hung-over
Don't feel like talking to you**

**I know I'll feel better, Just give me a day
Cause I was up late last night
And now I gotta pay (for)**

**Drinking with ghosts, I been drinking with ghosts
They're always happy to see you
You're the one that they toast
Drinking with ghosts, I been drinking with ghosts
They always laugh at the right time
They never question your boasts**

**Seems like everyones gone, Everyone who cared
Here I sit by myself
Lonely and scared**

**I don't drink to forget, I drink to be ten
I while away the hours
Remembering when**

**Come sit here beside me, Only you can make it right
I'm sorry I'm running behind
Was up again late last night**

**Drinking with ghosts, I been drinking with ghosts
They're always happy to see you
You're the one that they toast
Drinking with ghosts, I been drinking with ghosts
They always laugh at the right time
They never question your boasts**
