

REDEMPTION DAY

**If you never call my name
I will love you just the same
I know I've always let you down
But I'll always hang around
I'll wait forever if I must
Cause you're the only one I trust
To see I mean just what I say, I believe in Redemption Day**

**If I don't finish what I begin
I pray the lord forgive my sins
You may never feel the same
I only got myself to blame
The road is long, this I know
But I ain't got nowhere else to go
I'm pushin' hard in every way, To make it to Redemption Day**

**Momma I know you can't hear me
But I remember your final plea
To live for love and do what's right
And hold on to her with all my might
To be the man you thought I would
I'd start all over if I could
For all these things I've heard you pray,
Salvation waits on Redemption Day**

**Been a dreamer all my life
Only one came true and that's my wife
I've been blessed but paid the cost
For all I've gained much more was lost
I stand before you a humble man
So hold on baby, if you can
I need you more than I can say, See you on Redemption Day**
